o **Weekly Summary**

   This week, we worked on the project plan V1. We each contributed to different sections on the project plan V1, and reviewed it with the advisor. His feedback is being incorporated into the document, and will be included along with in class feedback in the next version of the plan.

   Looking forward, we will continue working with plug in development and Graphiti to hopefully start real development of the first phase of the project in the coming weeks.

o **Past week accomplishments**

  None at present time.

- **Plan for coming week**

·   John Koehn: Spend lots of time on learning eclipse plug-in development and make a early prototype of the project.

·   Brandon Huegli: Attempting to get some sort of anything working with Graphiti so that we can start working toward building our GUI

·   Chiakang Hung: Work on graphiti along side with team

·   Jordan Lawrence: Continue working on Graphiti, and hopefully gain enough understanding to begin real development.

- **Summary of weekly advisor meeting**

  We reviewed the first version of the project plan, and got feedback on what was good and what needed improvement. Key feedback focused on the timeline, diagrams, challenges and previous literature sections.
