Client &/Advisor: Lotfi ben Othmane

Team Members &/Role:
- John Koehn: Concept holder
- Brandon Huegli: Team Lead
- Chiakang Hung: communication
- Jordan Lawrence: Webmaster

o **Weekly Summary**

      We independently worked on Graphiti as a learning exercise, to prepare for actual development to begin. The first 'phase' of the project will be a functioning GUI, that allows for the creation/editing of assurance case diagrams. We will be meeting with Dr. Othmane to delegate initial tasks towards that goal.

o **Past week accomplishments**

·   John Koehn: Created experimental Graphiti project to get a general idea of how to design the software for the project

·   Brandon Huegli: Attempted to figure out how Graphiti works.

·   Chiakang Hung:

·   Jordan Lawrence: Worked through Graphiti tutorial/played with examples.

o **Pending issues**

·   N/A

o **Individual contributions**

NAME	Individual Contributions	Hours this week	HOURS cumulative
John Koehn	Created a test project to experiment with	5	21.5
Brandon Huegli	As above	3	14

Chiakang Hung	Graphiti tutorial	4	17
Jordan Lawrence	Graphiti tutorial work	6	22

- o **Comments and extended discussion**

    None at present time.

- o **Plan for coming week**

·   John Koehn: Start actual development on the project after meeting with Dr. Othmane to finalize the first sprint.

·   Brandon Huegli: Set up meeting to determine requirements and responsibilities. Should be able to finally get something going this week.

·   Chiakang Hung: meet with Dr. Othmane for project planning and keep working on graphiti

·   Jordan Lawrence: Begin project development, and continue learning about Graphiti.

- o **Summary of weekly advisor meeting**

    We decided on a time to meet next week to organize and assign initial tasks for a 'sprint', to begin development of the actual project. We were to create an initial set of tasks over the weekend.
